Email ReportPrint Report

Persona: Student Employee
Name: Lilly Librarianna
Personality: Quiet, Intelligent, Introvert,
Mood: bored
Role: Student Librarian

of Student Librarians: 12
How Often: They will use the system every time a person walks in or out of the library, could be every few minutes to several times a minute
Dexterity: Should not have any issues with sight, or ability to use the system
Place: Will be used in at the main entrance to the library, the main work station / check out desk.
Business Knowledge: Not much required, they will need to know how to count and what is considered a patron
Success means: The employee can successfully log into the system, easily navigate to the counting screen, and easily mark the usage statistics

Persona: Lucy Administrator
Name: Steve Supervisorinski
Personality: Intelligent, aloof, confident
Mood: content
Role: System Administrator

of Administrators: 2
How Often: They will access the system one time a day to reset the counters
Dexterity: This will be part of a normal job using a computer system, dexterity and physical ability should not be an issue
Place: They can do this from any computer that access the servers where the program is hosted.
Business Knowledge: A bit more knowledge is required to make sure the system is operating correctly, but for the most part not a lot is required
Success means: The administrator is able to log in to the system and reset the daily counts

Persona: Library Director
Name: Dawn Bella-Director
Personality: Well Educated, Stern, dry sense of humor
Mood: uptight
Role: Library Director: Oversees all library operations

of Library Directors: 1
How Often: She will use the system as needed, most likely once a week to check usage statistics
Dexterity: Due to her age, she may have some arthritis or shakes in her hands, so the buttons will need to be big so she can hit the click points
Place: She will access the system from the computer in her office
Business Knowledge: She will have all of the business knowledge and this system will help her make future decisions
Success Means: She can easily access the data and read the data.
She will need to be happy with her ability to make conclusions from the data
